OUR ATTITUDE TOWARD AGENTS

Our splendid success is due, in part, to the fact that we officers have been agents ourselves and therefore understand the problems of the field men. We co-operate with and help them to make money.

Directory Libraries

Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.
